

Photo Selection Basics and Tips

(See page 5 for additional ideas)

1. Select photos that are in sharp focus. We enlarge all photos and photo collages to fit the page and a fuzzy photo will look even fuzzier.
2. Choose photos where the faces are in bright light and not in shadow. Generally, bright colors will reproduce better than muted or washed out colors.
3. We accept photos and photo collages as small as 2" x 3" and as large as 10" x 11". We will not accept photos with nudity in them (except infant photos) - no exceptions! We don't accept negatives, slides, CDs, or discs.
4. Do not send in rare one-of-a-kind photos. Make copies of them and send the copies. If a photo gets lost or damaged at Happy Kids, we will reimburse you \$5.00 towards replacing that photo.
5. Trim white background from all photos or copies before sending in and do not mount a single photo on a sheet of white paper, just send the photo. If you mount a photo on a colored sheet of paper, trim the background paper to within 1/2" of photo. (See page 5 for examples.)
6. All photos with a copyright or studio name must be accompanied by a release from the studio.

Customers with dates printed on last year's calendars

When reusing last year's dates, please use the following guidelines:

- If you ordered personal dates on your calendar last year, your date list should have been included with your new kit this year. If you asked us to e-mail your kit, or you didn't receive your date list with your mailed in kit, your last year's dates are available on the upload section of our website. Just go to www.happykidspersonalized.com and follow the links on the home page to "Upload your calendar photos! Click here."
- Staple last year's date list that you received this year to your new kit sheet and we will print those same dates on this year's calendar for **FREE!** Otherwise, we will assume you don't want those dates reprinted on this year's calendar.)
- For a minimal charge of only \$1.95 for every 10 changes (additions, changes or deletions), you can update last year's date list. Follow the directions on last year's date list.
NOTE: Any new or additional dates should be written in Section C of your kit sheet, NOT on last year's date list.
- Remember to write the total number of dates ordered in the box on the left side of Section C of your kit sheet.

NOTE: If you list an event for February 29 for a calendar year that is not a Leap Year, please change this date to either February 28 or March 1. **The year 2009 is not a leap year.**
